| More about KYC workspace

Live Search

Our proprietary Live Search provides a seamless search and discovery experience that ignores static third-party databases in favour of direct connections to the official registers themselves.

- Audit-proof, time stamped data from over 115 million companies
- Coverage in more than 200 jurisdictions
- Data that fully complies with the latest AML regulations (e.g. AMLD4, 5 and 6, BSA, FATF, etc)
- Documents that include register reports, annual accounts, articles of association, shareholder agreements, and credit checks

Business Concierge Service

Our international team of KYC experts are here to assist you when the information you require cannot be retrieved using our Live Search tool. Only the most basic company information is necessary to initiate a request.

- Highly trained KYC experts at your disposal
- Business KYC data from historically "difficult-to-access" locations
- Request response time of 72 hours with 24 hours express option available
- Guaranteed data integrity to meet even the strictest compliance requirements

UBO discovery®

Based on an intuitive interface, UBO discovery displays connections between companies, officers and shareholders, within and across jurisdictions, helping you to comply with enhanced shareholders' identification regulations.

- Cross-border discovery abilities
- Easy-to-understand ownership visualisations
- Intuitive filters that allow you to specify your view (e.g. by ownership percentage)
- Automated retrieval of documentary evidence

Case Management

Built on the principle of team collaboration, the case management functionalities of KYC workspace allow for the monitoring and updating of relevant information and documents throughout the client lifecycle.

- Ongoing monitoring and profile management including client-declared data and document storage
- Case creation with customised checklists
- Intradepartmental task collaboration with progress monitoring
- Audit trail of all your KYC processes

About Moody's Analytics KYC

Moody's Analytics Know Your Customer (KYC) is transforming risk and compliance, creating a world where risk is understood so decisions can be made with confidence.
